**Question/Problem statement:**

- o  What is the Indian movies recommended for watching from 2019 to 2021?
- o  what the most type of movies from 2019 to 2021?

**Data Description:**

we extracted our dataset from Data.World website and scraped data from IMDb with 15506 number of rows and 10 number of columns.

| COLUMN NAME | TYPE | DESCRIPTION |
|---|---|---|
| Name | string | Name of the movies |
| Year | integer | Year the movie was released |
| Duration | string | Year the movie was released |
| Genre | string | The different genre the movie falls into. |
| Rating | integer | Rating given by IMDb |
| Votes | integer | Number of votes received on IMDb |
| Director | string | The director of the movie |
| Actor 1 | string | The actor of the movie |
| Actor 2 | string | The actor of the movie |
| Actor 3 | string | The actor of the movie |

**Tools:**

- Programs: Python and Jupyter Notebook.
- Libraries:  Pandas, Numpy, Matplotlib and Seaborn.
- Plots: Bar Chart and Box plots.

**MVP Goal:**

The goal of this project is to find the most rating with the highest number of votes of Indian movies from 2019 to 2021, to recommend you buy the ticket and enjoy your time watching.
